LEGISLATURE IN HARMONY ENDS ITS LONG TERM

All Bills Passed and One Veto Sustained Without Dissenting Vote.

Large Majorities Pass the Conference Reports on the Three Bills Left in Dispute. Governor Sends His Thanks.

A MESSAGE TO THE LEGISLATURE OF THE TERRI-TORY OF HAWAII.

I have no further public business to recommend for your consideration at this session of the Legislature.

Permit me to congratulate you upon the completion of the work of the session and to thank you for the liberal appropriations you have made for the administration of the public affairs of the Territory.

SANFORD B. DOLE,

Executive Chamber, July 11, 1903.

The Second Legislature passed shortly before midnight. It was as harmonious in closing as it was tempestuous during its ante agreement days, a veto from the Governor being unanimously sustained. the company like wall paper, as a active part in the growth of the city

The day was one which saw passed the three important measures, the loan bill and the two salary bills, and in both houses the capacities. vote was such as to show the readiness of the members to get through their work. The expressions of good will were many and sible daughter, Olive Evans, leads the in the way of keeping the city in the the session closed with the utmost good feeling.

The veto of the governor hits Hilo hardest, but the lower house shall and Charles Stine, a tempestuous recognized its justice and all voted for its being sustained. There life during three acts, with the aged was no discordant note and the adjournment was after an earnest and heartfelt expression by Speaker Beckley.

IN THE HOUSE

When the House met there was first presented the conference report upon the Six Months' Salary Bill, handed in by Knudsen, and signed by all conferees except Kumalae and Lewis. The reading had proceeded for a short time when Kumalae entered and at once raised a point of order that the conference committee had met during the morning, voted to reconsider the items of Superintendent of Public Instruction and Auditor, adjourning before that was accomplished, that in consequence there were no salaries for those officers. Speaker Beckley took the report and found that it did contain the items in question, and therefore ruled out the point of order.

Upon the completion of the reading of the report Kupihea moved that the report be adopted. Lewis said that there would be a minority report and Kumalae suggested that during the afternoon there would be a report submitted and moved also that there be a postponement of action until afternoon. He said the two items had been reconsidered and left in the air. Keliinoi said that faith had been broken with the Senate often enough and he thought the majority report should be adopted at once.

BECKLEY PLACES POINTS.

Speaker Beckley said that the majority party must bear the brunt of the public criticism in the event of failure of the appropriation bills. The question was not only a political one, there would be not only a political issue made of it but as well a racial one. The Hawalian people were on trial and by their votes were to be judged. The members of the House had been characterized as back yardmen and incompetent, men not expected to pass any legislation of benefit to the people. It was therefore the time for the members to show just how they would be judged. He said he was not making the statement to influence votes but he deemed it his duty as presiding officer to give to the House timely warning of the condition of affairs.

The bill was then passed by twenty-five ayes to four noes, the latter being Kumalae, Lewis, Oili and Paele. The conference report on the Eighteen Months' Salary Bill was then submitted by Chairman Kalama. was absolutely no discussion, to explain that he insisted on the cheers. Campbell item but he soon quit. The vote was twenty-four ayes, five noes, the noes being Kupihea, Lewis, Oili,

Paele and Wright, Kumalae voting aye with the remark that he did not vote for Marston Campbell.

The message of Governor Dole vetoing the item of appropriation for the Kona Orphange was then read. Lewis moved to sustain and Wright to override. The vote showed twenty-eight in negative being Wright.

LOAN BILL GOES THROUGH. Fernandez moved to adopt the majority report on the Loan bill. Aylett rose to make his swan's song before he was to bring prosperity and happiness he called on everyone to strike the paddles deep and send the canoe along had come to prove that Legislators were not here for purpose other than the good of the people, despite the

niho, the latter saying that the bill & would be ineffective to bring peace to the people; only misery would follow it, when the citizens wanted county government and it was denied them. Paele said he was grieved over the use of the word, seconding Oill's expression that the Senate smuggled in the

Fernandez rose to defend the Senate and the conference report, making one Q of the strongest and most cogent argu-

ments of the session. Speaker Beckley interrupted once during a colloquy to say that there seemed a misapprehension. No bonds could be issued or money spent except for specific uses as in the bill, and the \$2,000,000 would be spent among the people. This is the most important bill of the session, he said, for the improvements must be made, and if County Government is delayed still the work of the Territory must go on. If there is diversion of funds the officials must answer to the people at the next election. The money borrowed must be spent where it is directed by this

FERNANDEZ IS RESPONSIBLE. Fernandez continued that condemnation of the Senate was ill-timed. He said it was not a Senator who proposed the word "or" but himself, and he took all responsibility, for he knew that by its use the appropriations would be expended just where the Legislature directed. He defended the Senate, said that this course alone saved the bill. and called for everyone to support it. The previous question being called the vote was had there being twentyseven ayes to two noes.

Lewis of Hilo and Paele voted no and Kaniho and Oili in voting aye said they did so for the benefit of the though after the vote Wright began | people. Their votes were received with
